SPECIALTY TRAINING · CERTIFICATION COURSES · FEDERAL LAW ENFORCEMENT PROGRAMS

SOARescue prides itself on being a provider of solutions to the operational medicine community. While we have developed our Core Courses we also offer a variety of other courses tailored to meet the needs of your mission set. We exist to help you prepare better. Some of our offerings include:

- Tactical Combat Casualty Care (Tier I-IV)
- Pre-deployment Validation Exercises (With agency supplied validators)
- Cadaveric training models (Perfused)
- Non-Standard Evacuation exercise planning and execution
- Certification Courses (NAEMT, ASHI, AHA, Etc.)

READY TO HOST?

Hosting a SOARescue course saves your agency on TDY, travel, and per diem while keeping your team together. Military and public safety units have seen up to 50% savings. We handle curriculum, materials, and logistics — you provide the space and students. Custom course modifications can be made on contracted courses. If there is specific content or information you want covered (or not covered) this is available with all courses that we deliver to contracted agencies.

HOW TO HOST A SOARESCUE COURSE

Follow these four steps to bring a SOARescue course to your facility. Open and closed enrollment options available for all programs.

01 PICK A COURSE	02 CHOOSE ENROLLMENT TYPE	03 SECURE FUNDING	04 SET DATES
Review the courses in this guide. Course outlines are available at SOARescue.com or by email. Choose the program that best fits your department's mission profile. We will set up a consultation with our training administration team to determine best needs.	Closed Enrollment: single flat fee, up to 20 students, custom content available. Open enrollment: min. 12 students for course to run. We co-market with you to fill remaining seats. Host sources initial 12 — earn 1 free seat per 3 additional students enrolled.	SOARescue can assist with funding guidance. Hosting typically saves 30–50% vs. TDY. We provide invoices, accept POs, net-30 government terms, and credit card. Multiple courses can be contracted together.	Propose three date options. As we schedule 6-12 months in advance, the earlier the better. Open enrollment courses: schedule 3+ months out for student recruitment. Closed courses: 2+ months out. Contact Info@soarescue.com or call 1-855-476-2737.

ENROLLMENT OPTIONS

OPEN ENROLLMENT

Minimum students: 12 (Max of 24 students)

Host sources initial 12 — we assist marketing for the rest. We will provide marketing materials for you to share with your network and partners.

Free seat bonus:

(1) comp seat at confirmation of course then (1) additional comp seat when registration reaches (20).

Ideal for:

Agencies that want training and can draw students from neighboring departments.

CLOSED ENROLLMENT

Flat course fee: single invoice, your team only.

Max 24 students · Custom content can be added.

Cost advantage:

30–50% savings vs. TDY costs per student in many cases.

Ideal for:

Agencies, military units, or contractors needing dedicated training for a specific team.

PRICING AT A GLANCE

SCHEDULE**

CLOSED ENROLLMENT

Below is a list of fee estimations based on baseline course material utilization. Course customization will incur fees or changes that would be clarified at time of quotation. These prices are reflective of starting points to host SOARescue under a contracted program.

- **Tactical Medical Practitioner:** \$44,400.00 / course
- **Extended Austere Provider:** \$46,800.00 / course
- **Rescue Medical Practitioner:** \$50,000.00+ / course
- **Technical Austere Medical Evacuation:** \$42,900.00 (with possible adjustment for flight hours/time)

* Pricing subject to travel expenses. Contracted rates negotiable. Prices reflect 2026 fee schedule — contact for current rates.

FREQUENTLY ASKED QUESTIONS

Q Can we meet the minimum with students from multiple departments?

A Yes. Open enrollment courses can draw students from neighboring departments. We can also help coordinate groups when multiple agencies have expressed interest.

Q What payment methods and terms are accepted?

A We accept check, credit card, and Purchase Orders. Net-30 terms available for government entities; private entities subject to approval. Multiple courses can be contracted upfront. Other contract vehicles available for federal purchasing.

Q Can we contract multiple courses at once?

A Yes — terms can be negotiated upfront and delivery can occur consecutively or at scheduled intervals, spreading travel costs across courses to reduce overall pricing.
